What is REACH?

REACH is the European Community Regulation on chemicals and safe use. It deals with the Registration, Evaluation, Authorisation and Restriction of chemical substances that are intentionally released during normal use of products and particularly hazardous substances. The purpose of REACH is to raise the level of protection for human beings and the environment through the better and earlier identification of the intrinsic properties of chemical substances.

We are very proud to feature a tech-savvy way of showcasing our bags. Look inside for these **QUICK RESPONSE CODES** to view a video presentation of our product features. Download a free QR Code reader app to your smart device and start scanning!
