# EMBELLISHMENT OPTIONS

Choose wisely :)

1

## Embroidery

A process whereby an embroidery machine is used to create patterns on textiles. Multiple colours and design options. Perfect for fine high quality detail.

2

## Screen printing

A method in which ink is applied directly to the fabric via a screen. For each colour to be printed a separate screen is prepared and the process is repeated. Produces a unique visual work.

3

## Applique

Ornamental needlework done by machine in which a piece of fabric is sewn on to a larger piece to form a picture or pattern. Artwork becomes very outstanding and adds another dimension to the garment especially if contrasting colours are used.

4

## Sublimation

A process by which sublimation dyes are printed onto sublimation paper. Those dyes are then transferred to a garment under the heat and pressure delivered by a commercial heat press. The print is actually a part of the garment/coating and doesn't add any texture or weight to the garment. Endless possibilities...
